CONTENTS OF VOLUME 206

No. 1. *January* 1970

PAGE

A reconsideration of the Poisson hypothesis for transmitter release at the crayfish neuromuscular junction. By G. D. Bittner and J. Harrison 1

Cerebral and cardiac enzymic activity and tolerance to asphyxia during maturation in the rabbit. By Paul M. Heidger Jr., Faith S. Miller and James A. Miller Jr. 25

The difference in sensitivity to cardiac steriods of $(Na^+ + K^+)$-stimulated ATPase and amino acid transport in the intestinal mucosa of the rat and other species. By J. W. L. Robinson . . 41

Effect of calcium on excitatory neuromuscular transmission in the crayfish. By H. Bracho and R. K. Orkand 61

Quantitative aspects of gain and latency in the cat retina. By B. G. Cleland and Christina Enroth-Cugell 73

Responses to directional stimuli in retinal preganglionic units. By A. L. Norton, H. Spekreijse, H. G. Wagner and M. L. Wolbarsht 93

Rod-cone independence for sensitizing interaction in the human retina. By Gerald Westheimer 109

Specificity of cone mechanisms in lateral interaction. By Suzanne P. McKee and Gerald Westheimer 117

Distance effects in human scotopic retinal interaction. By Gerald Westheimer and R. W. Wiley 129

Synthesis, storage and release of [^{14}C]acetylcholine in isolated rat diaphragm muscles. By L. T. Potter 145

The dorsal nucleus of the vagus as a centre controlling gastric motility in sheep. By B. R. Howard 167

The role of energy metabolism in calcium-evoked secretion from the adrenal medulla. By R. P. Rubin 181

The size of rod signals. By M. Alpern, W. A. H. Rushton and S. Torii 193

PAGE

The attenuation of rod signals by backgrounds. By M. Alpern, W. A. H. Rushton and S. Torii 209

The development of the metabolic response to thyroxine in the new-born pig. By Hanna Kaciuba-Uscilko, K. F. Legge and L. E. Mount 229

No. 2. *February* 1970

The effects of hypophysial portal plasma on the content of immunoreactive growth hormone in the anterior pituitary. By M. G. Buse, J. D. Fulmer, P. C. Kansal and W. C. Worthington . 243

The series elastic component of frog gastrocnemius. By Giovanni A. Cavagna 257

Fat metabolism in brown adipose tissue *in vivo*. By M. J. Hardman and D. Hull 263

The secretion of pancreatic juice in response to stimulation of the vagus nerves in the pig. By J. C. D. Hickson 275

The secretory and vascular response to nervous and hormonal stimulation in the pancreas of the pig. By J. C. D. Hickson . . 299

The effect of the renin-angiotensin system on mucosal water and sodium transfer in everted sacs of rat jejunum. By Ann D. Crocker and Kenneth A. Munday 323

Studies on the excretion of [^{14}C]histamine and its metabolites by the rabbit kidney. By T. H. Lippert and Ursula Quasthoff 335

Reflex inhibition of monosynaptic reflexes by stimulation of type J pulmonary endings. By S. S. Deshpande and M. S. Devanandan 345

Oscillation in the stretch reflex arc and the origin of the rhythmical, 8–12 c/s component of physiological tremor. By O. C. J. Lippold 359

Release of acetylcholine by chick embryo heart before innervation. By E. Coraboeuf, G. Le Douarin and G. Obrecht-Coutris 383

The location of the chemoreceptor controlling gastric acid secretion during hypoglycaemia. By D. G. Colin-Jones and R. L. Himsworth 397

Hypothalamic control of adrenaline secretion in response to insufficient glucose. By R. L. Himsworth 411

PAGE

The period of susceptibility to the physiological effects of unilateral eye closure in kittens. By D. H. HUBEL and T. N. WIESEL 419

Consequences of monocular deprivation on visual behaviour in kittens. By P. B. DEWS and T. N. WIESEL 437

Heat production and chemical change in tortoise muscle. By T. H. WALSH and R. C. WOLEDGE 457

Influence of oestrogen on thyroid function in the ewe. By IAN R. FALCONER 471

The involvement of the complement system in the pressor response to the injection of Forssman antibody in the guinea-pig. By G. DARLOW, G. F. GOUGH and R. TANALP 481

No. 3. *March* 1970

Irreversible impairment of thermoregulation induced by capsaicin and similar pungent substances in rats and guinea-pigs. By AURELIA JANCSÓ-GÁBOR, J. SZOLCSÁNYI and THE LATE N. JANCSÓ 495

Short-circuit current and ionic fluxes in the isolated colonic mucosa of *Bufo arenarum*. By V. L. LEW 509

Bicarbonate secretion and non-Na component of the short-circuit current in the isolated colonic mucosa of *Bufo arenarum*. By N. J. CARLISKY and V. L. LEW 529

Functional specializations of the vascular bed of soleus. By S. M. HILTON, M. G. JEFFRIES and G. VRBOVÁ 543

The extraneuronal uptake and localization of noradrenaline in the cat spleen and the effect on this of some drugs, of cold and of denervation. By J. S. GILLESPIE, D. N. H. HAMILTON and R. JEANETTE A. HOSIE 563

Species and tissue variation in extraneuronal and neuronal accumulation of noradrenaline. By J. S. GILLESPIE and T. C. MUIR 591

Abomasal secretory responses to teasing with food and feeding in the sheep. By L. M. MCLEAY and D. A. TITCHEN 605

Depression of transmitter release at the neuromuscular junction of the frog. By W. J. BETZ 629

Sympathetic denervation of the smooth muscle of the vas deferens. By A. T. BIRMINGHAM 645

PAGE

Place and modality analysis in nucleus of posterior commissure. By DAVID BOWSHER and DENISE PETIT 663

Responses of cat retinal ganglion cells to brief flashes of light. By W. R. LEVICK and J. L. ZACKS 677

The effect of diet and acute starvation on the deiodination of thyroxine and triiodothyronine in the thyroidectomized rat. By P. W. NATHANIELSZ 701

Blood levels of oxytocin and vasopressin during suckling in the rabbit and the problem of their independent release. By G. W. BISSET, BARBARA J. CLARK and JAYA HALDAR 711

Independent release of oxytocin and vasopressin during parturition in the rabbit. By JAYA HALDAR 723

The roles of striated and smooth muscle in the movement of the cat's nictitating membrane. By W. D. M. PATON and J. W. THOMPSON 731

PROCEEDINGS OF THE PHYSIOLOGICAL SOCIETY

7–8 *November* 1969
